Continuation Sheet (PTO-303)

Continuation of 3. NOTE: While applicant's proposed amendment would overcome the rejection based on Shun'ko under 35 U.S.C. 102(e) it still will require further consideration and whether such a feature is obvious due to other prior art which would be present in a further search. The proposed limitation was not considered in the finally rejected claims and would therefore require further consideration and search as discussed above.
